Just a Holiday Visit.

The trip was made quietly and with out display. It was just a holiday visit for the President, and not a policeman a local committeeman bothered him in all the long journey. Only once did a cop figure in the ride, and that was when the President's car started in on the speedway at River Beach, near Bos ton. That speedway is sacred from 3 o'clock in the afternoon until 10 o'clock horse-pulled vehicles. But the name of crats in the coming Congressional camthe President was mighty. They opened paign. In all the hundreds of thousands of people who saw him, and there were more than a hundred thousand at Revere Beach alone, just a few recognized the President. Father Point. Quebec, July 31.-A sharp, old wind blew up from the east and with it the fog from the Atlantic. Four masts and a funnel loomed indistinctly away out on the waters. From the shadows of the wharf a skiff shot out and lost itself in the mist. The dismal horn of the steamer tooted and the bell in her possession a splendid diamond from the lighthouse buoy sent forth its nessage of guidance and assurance. THE RULE OF LIFE.

A mountain of books have been written, to show us the paths we should tread, and we have been laden with precepts, by sages both living and dead; and most of the wisdom is useless, for all that a man needs to do, is just to be gentle and true, lad, just to be gentle and true. The name of the teachers is legion who'd point out the road to success; they'd have us believe that the journey, unguided, is full of distress; the secret, however, is simple, and easy to carry in mind; it's just to be honest and kind, lad, just to be honest and kind. I don't care a cent for the theories and creeds that the wise men expound; for all of the words that are thundered are merely a wind and a sound; the logic of life is so simple, it leaves all the dogmas behind; it's just to be honest and kind, lad, just to be honest and kind.
